

Covid Policy: Your Safety is our Priority

We are open at full capacity to everyone who has been vaccinated against Covid. We will require proof of current vaccination status at entry, either with a vaccination card or the NYS Excelsior Pass or similar electronic system.

Current CDC guidelines recommend masks for all vaccinated patrons of indoor events in our area. We encourage all guests to remain masked unless eating or drinking.

We do not have a non-vaccinated seating section, nor are we equipped to accept recent negative Covid tests. Should this guidance change by show day, we will adjust our policy accordingly. *NYS Excelsior Pass info & signup [here](#).*

Children under the age of 12 who are not currently eligible to receive a vaccine must be accompanied by a vaccinated adult and must wear a mask at all times.

All Landmark staff, ushers and crew are fully vaccinated.

Our theater air conditioning has been modified to meet the CDC's MERV-13 filtration recommendation.
